Justine is an overall amazing GSI. She leads a very well thought out and planned discussion that perfectly covers all the course material, lecture, and readings. She also uses creative ways to help get the information across to really help it stick in our heads. You can also tell she really cares about us and is interested in our success in this class.

Justine broke down core concepts in a manner that was easy to understand. She spoke clear and well and was very knowledgeable over the materials of this course.

Justine is extremely good at explained at a level where everyone understands even the most difficult parts. She also makes the classes fun – at 8 am that is quite a skill!

JUSTINE IS THE BEST! From the first day of class I knew Justine would be a blessing and one of the best GSIs I have ever had. She is knowledgeable and extremely well-spoken and has poise that I envied every week. I wish I was more like her! Justine definitely went above her duties in preparing our class for every quiz and midterm. Thank you so much Justine, I hope you continue to teach because you have a gift!

Justine made her absolute best effort to make the materials and concepts understandable for every student in the section and made herself completely accessible to those who had questions or concerns. She put a lot of effort into deconstructing the readings and concepts during section and ensured that we would do our best during the weekly reading quizzes.

Justine always came to section prepared and with things to get the discussion going. She included a variation of group activities, writing exercises, and class discussions to present the material in relevant and interesting ways. She always felt very approachable and had extensive knowledge on the subjects, and I really appreciated the effort she put into the course. She was one of the best GSIs I have come across.
